APRIL 2010

THREE. Asha Patel Faceted Labradorite Bracelet — This bracelet is so fun and adorable, I must order it immediately. The leather bracelet is topped with a faceted Labradorite stone in a pretty, misty hue that reminds me of the darkening weather before a thunderstorm. (Labradorite is known to promote self-control and inner peace and is meant to stand for clarity of insight and intuition. Who couldn't use more of that?) The bracelet is an affordable \$30, but if the stone isn't your particular taste, there are several other versions also available online at the same price. Definitely a Cheap and Chic pick worth checking out! - Stacey
